

C-Scan Scanning System Retrofit

Sonix recognizes that even though your inspection needs have changed, the cost of a new ultrasonic immersion system may not be in your budget. That's why Sonix offers the modular, software driven FlexSCAN-C that adapts to meet your changing needs without making your current hardware obsolete.

Active*

Complete motion control of the scanner by the SONIX Data Acquisition System.

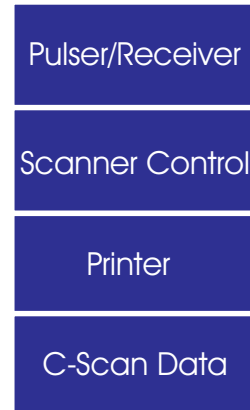

- Industrial Grade Pentium
- Sonix A/D Board
- SMC-6A Motor Controller Board
- SMD Motor Control System
- FlexSCAN-C Software
- Ultrasonic Pulser Receiver - 35 MHz
- Your Scanning Hardware

Passive

Encoder input to the SONIX Data Acquisition System for plotting scan location.

- Industrial Grade Pentium Computer
- Sonix A/D Board
- Encoder Input Board
- FlexSCAN-C Software
- Ultrasonic Pulser Receiver - 35 MHz
- Your Scanning Hardware

* Active retrofits may require additional hardware components based on your existing system configurations.
